

150Mbps Portable Wireless-N 3G Router

Share Your Mobile Broadband

Wireless Speed Up to 150Mbps

WISP Access Supported

BRIEF INTRODUCTION ❖❖❖

The 3G150M is a 3G/4G mobile broadband network-compatible 150Mbps Wireless-N router. The ability to be powered through a USB connection when power outlets are scarce, compact design, and included travel bag all further the device's ability to deliver networking with a very high degree of mobility. In addition to having the flexibility of connecting a mobile broadband USB modem to share the internet and files through the 3G150M, users retain a full range of previous generation networking options. Users may utilize the device's DSL/cable WAN connection port for more conventional networking needs or use the wireless WAN feature to amplify another wireless signal, under the security of a built-in firewall. In more remote locations users may also tap into connections made available by WISPs (Wireless Internet Service Providers). The 3G150M is an easy to carry and easy to use, feature-rich router that opens new opportunities in connectivity. It is an excellent choice for those in need of a mobile networking solution employing a 3G/4G connection and providing WLAN internet access.

PRODUCT FEATURES ❖❖❖

- ▶ Plug in your 3G/4G mobile broadband USB device and share the connection
- ▶ Compact design and ability to be powered through USB port makes for highly portable networking
- ▶ 150Mbps Wireless N router/AP with firewall and 10/100Mbps auto-negotiation LAN/WAN port
- ▶ WISP access
- ▶ One-touch mode switching

WHAT THIS PRODUCT DOES

Rapid and mobile deployment of a Wireless-N LAN utilizing internet access via another router, an Ethernet cable, or a 3G/4G mobile broadband USB device

BENEFITS

- Ideal for mobile broadband solution and backup of fixed broadband
- Enables you to share 3G network everywhere
- works with WCDMA, CDMA2000, TD-SCDMA
- Perfect for big files transferring, HD video and audio

PACKAGE CONTENTS

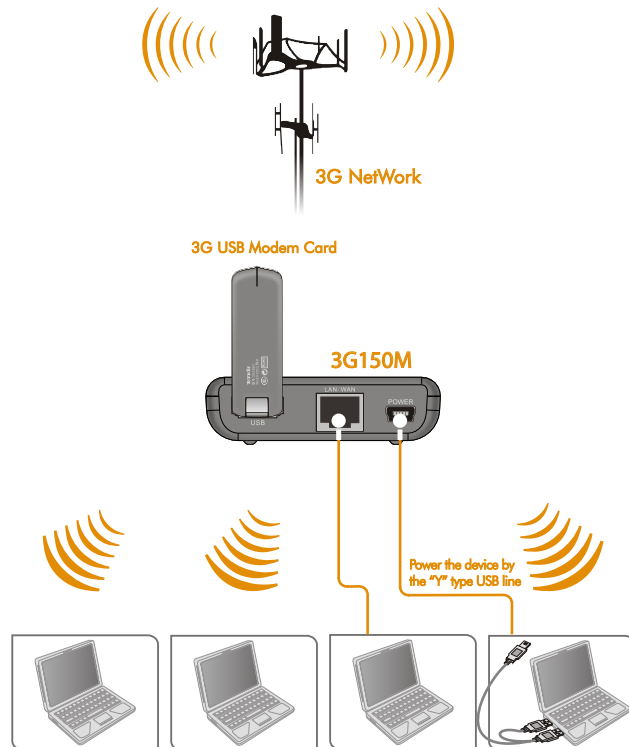

- 3G150M -- 150Mbps Wireless-N 3G Router
- Power Adapter
- USB Cable
- CD (User Guide included)

MINIMUM REQUIREMENTS

- 2.4 GHz 802.11n adapter or 802.11b/g wireless adapter
- Microsoft® Windows® 7, Vista™, XP, 2000, Mac® OS, UNIX®, or Linux®
- Microsoft® Internet Explorer® 5.0, Firefox® 2.0 or Safari® 1.4 or higher

TECHNICAL SPECIFICATIONS

Standards	IEEE 802.11n, IEEE 802.11g, IEEE 802.11b, IEEE 802.3, IEEE 802.3u
Connection Type	PPPOE, Dynamic IP, Static IP, L2TP, PPTP
Encryption Mode	64/128bit WEP, WPA, WPA2 and WPA-PSK/WPA2-PSK
Max. Wireless Speed	Up to 150Mbps
Frequency	2.4-2.5GHz
Interface	Auto-negotiation 10/100Mbps LAN/WAN port, USB Type A port, USB Mini-A port, power
Buttons	Reset/WPS, Mode
Antenna	Internal omni-directional antenna
Power Rating	DC 5V, 1A
Operating Temperature	32 to 104°F (0 to 40°C)
Operating Humidity	10 to 90% Noncondensing
Storage Temperature	-40 to 158°F (-40 to 70°C)
Storage Humidity	5 to 90% Noncondensing
Dimension (WxDxH)	
Gross Weight	0.69kg
Certificate	CE, RoHS,

Model No.: 3G150M
